

## Computer Speakers Wired Hidden Camera

Great for monitoring at home or the office, these functioning computer speakers have our PalmVID pinhole-lens CCD camera expertly mounted inside of it.

The included 25' video cable connects to any TV or VCR with video inputs!

PalmVID Video Cameras proudly presents the PVCOMPSPEAKER wired hidden camera package.

Don't be fooled by imitations; since we manufacture all of our hidden cameras ourselves, when you choose a PalmVID hidden camera you always get the best equipment available at the best price.

Our systems use the latest CCD video technology to give you crisp, clear video on any TV or VCR with video inputs.

It blends easily into any room with a computer, and since the speakers are fully functional, no one will ever suspect that it really is a camera.

You have your choice of a black and white or a color camera, either way you will always get a crisp, clear camcorder-quality picture. There is no installation; simply plug in the enclosure, connect the included video cable to any VCR or other video input source and you are ready to view or record your camera image. You can set your VCR's timer to start recording automatically or you can start the recording manually. You can record for up to 6 hours on a T-120 tape, up to 8 hours on a T-160 tape, and up to 10 hours on a T-200 tape.

The standard wired system includes: a CCD pinhole-lens camera housed inside of a functioning computer speakers, and a 25' video cable for connecting to a TV or VCR.

### FEATURES
